Dear Sir,

**RE : INTAKE OF WASTE TYRE (SCRAP & SHREDDED TYRE) AND  
USED CLOTHES TO THE PORT**

It is with due respect; I would like to draw your attention to the matter above.

2. For your information, we have conducted inspections on the containers containing unclaimed and declared goods for more than 3 months at the port. The inspection discovered that there were goods such as waste tyre and used clothing that were imported in large volumes, and it is most likely waste that had been left there deliberately.

3. Please be informed that waste tyre and used clothes are difficult to sell/auction. The goods are also not suitable to be disposed because they are not biodegradable and causes environmental pollution.

4. Effective from the date of this letter, if there are any containers containing waste tyre and/or used clothing that are left at the port for more than 3 months, the goods will not go through the auction process and must be returned to origin.

5. Please inform the importers and exporters on this regulation to ensure that the importers/exporters are authorized to receive such goods before the consignment is shipped/received.

Thank you.

Yours faithfully,

**(CAPT. K. SUBRAMANIAM)**
